

MY QUICK COMPARISON CHART

We use a lot of tools and templates in coaching, so to kick things off before you even enrol here's a simple exercise you can do while you are making your decision. List some other colleges or courses you are considering and compare us all. You may find you need to ask colleges more questions to really be able to compare, but it's far better to make a truly informed choice and go in 'eyes wide open'. You're coaching yourself already!

MY VISION OF ME AS A HEALTH COACH:
